NimbusCart Customer Support Policy Handbook

1. Order Management

1.1 Placing an Order
Customers can place an order by adding items to their cart and completing checkout through the website or mobile app. Once submitted, an order confirmation is sent to the email address on file within a few minutes. Orders cannot be modified after they enter the 'Processing' stage, so any changes to items, quantities, or delivery address must be requested before this point.

1.2 Changing an Order
To change an order, customers should sign in to their account, navigate to Order History, and select the order in question. If the order status still shows 'Pending' or 'Received', quantities, sizes, or shipping details can be updated directly. If the order has already moved to 'Processing' or beyond, customers should contact support immediately, as changes may no longer be possible once an order has shipped.

1.3 Cancelling an Order
Orders can be cancelled free of charge within 60 minutes of purchase by visiting Order History and selecting 'Cancel Order'. After this window, cancellation is still possible as long as the order has not shipped, but may be subject to a cancellation fee (see Section 6). Once an order has shipped, it cannot be cancelled; customers should instead follow the Refunds and Returns process in Section 2 after the item is delivered.

2. Refunds and Returns

2.1 Refund Eligibility
Most items are eligible for a refund if a return request is submitted within 30 days of delivery. Items must be unused, in their original packaging, and accompanied by proof of purchase. Perishable goods, personalized items, and digital downloads are not eligible for refund unless defective.

2.2 How to Request a Refund
To request a refund, go to Order History, select the relevant order, and choose 'Request Refund'. Customers will be asked to select a reason and, for physical goods, print a prepaid return label. Once the returned item is received and inspected, refunds are issued to the original payment method.

2.3 Tracking a Refund
Refund status can be tracked from the 'Refunds' tab under My Account. Typical processing time is 5-7 business days after the returned item is received at our warehouse; it may take an additional 3-5 business days for the refunded amount to appear on the customer's bank or card statement, depending on the issuing bank.

3. Payments

3.1 Accepted Payment Methods
• Credit and debit cards (Visa, Mastercard, American Express)

• PayPal

• Store gift cards and store credit

• Buy-now-pay-later options where available in the customer's region

3.2 Payment Issues
If a payment fails at checkout, customers should confirm their card details and available balance, then retry. If the issue persists, customers can contact their card issuer to confirm the transaction isn't being blocked, or try an alternate payment method. Duplicate charges from a failed transaction are automatically reversed within 5 business days; if this does not happen, customers should contact support with their order number and transaction ID.

4. Shipping and Delivery

4.1 Delivery Options
Standard delivery typically takes 3-7 business days depending on destination. Expedited (1-2 business days) and same-day delivery (available in select metro areas) can be selected at checkout for an additional fee. Orders placed before the daily shipping cut-off time are processed the same day; orders placed after the cut-off are processed the next business day.

4.2 Changing a Shipping Address
A shipping address can be changed from Order History as long as the order has not yet shipped. Once an order has shipped, the address cannot be changed for that shipment; customers should contact the carrier directly with the tracking number, or contact support to arrange redirection where the carrier supports it.

4.3 Setting Up a Saved Shipping Address
Customers can save one or more shipping addresses under My Account > Addresses for faster checkout in the future. A default address can be set, and saved addresses can be edited or removed at any time.

5. Account Management

5.1 Creating and Editing an Account
An account can be created using an email address and password, or via single sign-on with Google or Apple. Account details such as name, email, phone number, and password can be updated at any time under My Account > Profile Settings.

5.2 Switching Account Type
Customers on a Basic account can switch to a Premium account (offering free expedited shipping and early access to sales) from the Account Settings page. Downgrading is also supported; existing orders already placed are not affected by an account type change.

5.3 Deleting an Account
Accounts can be deleted from Account Settings > Delete Account. This action is permanent and will remove saved addresses, payment methods, and order history from the customer-facing account view. Deletion requests are typically processed within 30 days in line with applicable data protection regulations.

6. Cancellation Fees
Orders cancelled within 60 minutes of purchase incur no fee. Orders cancelled after this window but before shipping may incur a cancellation fee of up to 5% of the order value to cover payment processing and restocking costs. This fee does not apply to orders cancelled due to a store error, such as an incorrect price or an item being out of stock.

7. Invoices
An invoice is automatically generated for every completed order and is available under Order History > Invoice. Invoices include the order number, itemized pricing, applicable taxes, and payment method used. Customers who need a copy of an older invoice can search by order number or date range under My Account > Invoices, or request one from support.

8. Newsletter Subscription
Customers can subscribe to or unsubscribe from marketing emails at any time from the link at the bottom of any newsletter email, or from My Account > Communication Preferences. Unsubscribing from marketing emails does not affect transactional emails such as order confirmations and shipping updates.

9. Feedback and Complaints

9.1 Leaving a Review
Customers can leave a product review from the order history page approximately one week after delivery, or directly from the product page if they have a verified purchase.

9.2 Filing a Complaint
Complaints about an order, delivery experience, or support interaction can be submitted through the 'Contact Us' form, selecting 'Complaint' as the category. Complaints are reviewed by a member of the customer experience team, typically within 2 business days, and the customer is notified of

the outcome and any resulting action by email.

10. Contact and Support Channels
Support is available through live chat (Monday-Saturday, 8am-9pm local time), email, and phone. Live chat is generally the fastest channel for order, payment, and shipping questions. For account security concerns, customers are encouraged to contact support directly rather than sharing account details over chat.
